ABOUT ME

Java Backend Developer with 8 months of professional experience in designing and developing scalable backend applications using Java, Spring Boot, REST APIs, and MySQL. Experienced in Microservices Architecture, JWT Authentication, and API Development. Passionate about building high-performance applications and continuously learning modern backend technologies.

EDUCATION

B-TECH IN INFORMATION TECHNOLOGY CGPA: 8.35

PSNA College of Engineering and Technology, Dindigul

HIGHER SECONDARY CERTIFICATE 2021-2022

Goverment Modern Higher Secondary School , Kasipalayam

SECONDARY SCHOOL CERTIFICATE 2019-2020

Goverment Modern Higher Secondary School , Kasipalayam

SKILLS

- Core Java
- Maven
- SQL
- Agile Methodology
- Hibernate
- Spring Security
- REST APIs
- JWT Authentication
- Microservices Architecture
- Spring Data JPA

PROJECTS:

Transport Management System (03/2023 - 04/2023)

- Developed a Java-based system to manage vehicles, drivers, and route information.
- Implemented object-oriented principles to structure modules for booking, scheduling, and trip tracking.

Bank Management System (Internship Task) (02/2025 - 03/2025)

- Built using OOPs in Java. Implemented advanced added for Fingerprint secure identification, Transaction amout,Balance amount, Account Details and etc.

Microservice-Based Transport Management System (02/2025 - 04/2025)

- Developed a Microservice - Based Transport Management System using Java & Spring Boot.
- Implemented modular services for vehicles, drivers, routes and bookings.
- Secured APIs with JWT-based authentication and role-based authorization , Using Spring Boot,Spring Cloud,Eureka Server,API Gateway,MySQL,Hibernate,JWT Security,REST APIs for service discovery and routing.

SOFT SKILLS:

- Team Player
- Problem Solving
- Fast Learner
- Adaptability
- Creative Thinking
- Communication Skills

WORK EXPERIENCE

Backend Developer
Vision Waves Technology Pvt. Ltd.
(INDORE) Full-Time | 8 Months

- Developed scalable backend applications using Java and Spring Boot.
- Implemented CRUD operations using Spring Data JPA and MySQL.
- Designed and consumed RESTful APIs.
- Integrated JWT Authentication and Authorization.
- Managed dependency management using Maven.
- Followed MVC Architecture and Object-Oriented Programming principles.
- Participated in Agile development process and sprint planning.

CERTIFICATIONS

- Internship in Full Stack Web Development – Galwin Tech (Online)
- Internship in Java Full Stack - Intranaiz Plasmid Online
- Internship in Spring Boot – Codesoft (Online)

TECHNICAL TOOLS

- Github
- My SQL
- VS Code
- Postman

LANGUAGE

- Tamil (Native)
- English (Professional)
